PROFESSIONAL SUMMARY

Motivated Information Technology undergraduate with a strong foundation in software engineering and application development. Skilled in building scalable solutions and intuitive user interfaces. Seeking an internship or junior engineering role to leverage technical expertise in Java, React.js, and Cloud technologies to deliver impactful real-world applications.

SKILLS

Languages: Java, Kotlin, JavaScript (ES6+), SQL, HTML5, CSS3
Frontend: React.js, Tailwind CSS, XML (Android), Figma (UI/UX)
Backend & DB: Node.js, Spring Boot, Express.js, MongoDB, MySQL, Firebase
Tools: Git, GitHub, Android Studio, Postman, MS Excel
Soft Skills: Problem Solving, Agile Teamwork, Adaptability, Time Management, Leadership, Client Communication

EDUCATION

SLIIT <i>BSc (Hons) Information Technology (CGPA: 3.0 – Currently 3rd Year)</i>	<i>Expected 2027</i> <i>Present</i>
Achievers Lanka Business School <i>CIMA Certificate Level</i>	<i>Completed</i>
Carey College <i>GCE Advanced Level (Commerce Stream)</i> <i>Subjects: General English (A), ICT (C), Accounts (C), Business Studies (C)</i>	<i>Completed</i>

CERTIFICATIONS

• AWS Certified Cloud Practitioner Amazon Web Services	<i>(Reading)</i> <i>2026</i>
• Cloud Foundation University of Moratuwa	<i>2026</i>
• Git and GitHub Essentials IBM (Coursera)	<i>Jan 2026</i>
• IBM Full Stack Software Developer Professional Certificate IBM (Coursera)	<i>Dec 2025</i>
• AI/ML Engineer Stage 1 SLIIT	<i>Aug 2025</i>
• Advanced MS Excel AAT Business School	

KEY PROJECTS

Britex Safety House (Client Project) Full Stack Framework Developing a custom, scalable application for a fire and safety client to manage operational workflows and user data. Collaborating directly with the client to gather requirements and translate them into functional technical features.	<i>In Progress</i>
Smart University System Java, Spring Boot Developed a comprehensive university management system using Java and the Spring Boot framework to streamline administrative and academic operations. Implemented robust RESTful APIs for student data management, course enrollment, and scalable backend performance.	<i>Mar 2026</i>
Electronic Sales & Repair System MERN Stack Built a responsive web application to streamline electronic sales and repair tracking workflows. Engineered RESTful APIs to optimize CRUD operations and inventory management efficiency.	<i>Oct 2025</i>
Personal Wellness Tracker App Kotlin, Firebase Built a native Android application using Kotlin and Android Studio with an intuitive user interface. Integrated Firebase Authentication and Firestore for real-time data syncing and secure user access.	<i>Aug 2025</i>

EXTRACURRICULAR ACTIVITIES

- **Leo Club Member** | Carey College (2018-2020)
- **ICT Society Coordinator** | Carey College (2018) – Organized school-level tech events.
- **Cricket Team Member** | Carey College (U-13, U-15, U-17)
